

2021 Pohang Innovation Salon(PIS) Presentation Topic

Year	Date	Presenter [Organization/Company]	Presentation title
2021	13 May	Kyong Tai Kim [POSTECH]	Development of Innovative Anti-aging Cosmeceuticals
		Seung-Woo Lee [POSTECH]	Therapeutic approaches for spinal cord injury
		Jeong Beom Kim [UNIST]	IL-7-hyFc as a versatile partner for cancer immunotherapy
	10 June	Yoon-Kyoung Cho [UNIST]	Liquid biopsy for customized chemotherapy
		Chulhong Kim [POSTECH]	Commercialization of photoacoustic/ultrasound medical imaging equipment for peripheral vascular disease
		Eun-Ju Sohn [Bioapp]	Plant expression system as a safe and fast vaccine platform for pandemic or bioterrorism
	8 July	Jie-Oh Lee [POSTECH]	Introduction of Cell Membrane Protein Research Center and cryo-EM
		Jung-min Lee [Handong University]	"Stem cell and Genome editing as a new therapeutic tool for the intractable diseases"
		Kyungjae Myung [UNIST]	Translating Genomic Instability for Clinical Application
	12 August	Sin-Hyeog Im [POSTECH]	Current Status and Future Prospects of Microbiome-Targeted Therapeutics
		Hyun-Suk Lim [POSTECH]	Targeted protein degradation for drug discovery
		Jun-Young Lee [Selexcine]	anti-tumor activity and stability of IL-2 / anti IL-2 conjugate SLC-3010 in preclinical experiments.
	9 September	Won Jong Kim [POSTECH]	Nitric Oxide donor/scavenger for treatment of various disease
		Hyung Joon Cha [POSTECH]	Medical and healthcare applications of innovative adhesive biomaterials
		Jae-Sung Bae [KyungPookNationalUniversity School of Medicine]	Discovery of a novel dual-action small molecule that improves multiple Alzheimer's disease pathologies
	14 October	Sei Kwang Hahn [POSTECH/PHI BIOMED]	"Smart Nanomedicines and Healthcare Devices"
		Gun-Ho Kim [UNIST/RECENS MEDICAL]	Transforming medical procedure with precision cooling technology
		Youndong Kim [POSTECH/Aptamer Sciences]	Development Of Transferrin Receptor Aptamer For Molecular Shuttle Platform Across Cell Membrane
	11 November	Sang-Cheol Noh [ANPOLY]	Industrial Applications of Nanocellulose
		Jun-Ho Lee [BIOCOM]	Development of CO2 reduction solution with biocatalyst-mediated CO2 conversion technology
		Jung Doo Choi [Gyeongbuk Institute for Bio industry]	Introduction to Gyeongbuk Industrial Hemp Regulation-Free Zone Project
9 December	Jong-Yi Park [Gyeongbuk Institute for Bio industry]	Establishment of infrastructure system for technical support to promote commercialization of vaccine	
	Sung-Young Kim [IN THERAPEUTICS]	Voltage gated sodium channels for pain drug development	
	Do-Young Kim [Pohang Techno Park- Advanced Bio Convergence Center]	Bio-Venture Incubation Platform in Pohang
